December 2012

To the President of the Hungarian Republic,
To the Prime Minister of the Hungarian Republic,
To the Speaker of the Hungarian National Assembly,

As members of our respective Parliaments, elected to represent our constituents throughout the world, we are writing to express our deep concerns and to forcefully condemn the recent statement made by Márton Gyöngyösi, Member of the Hungarian Parliament, in which he called for a listing of all Jews in Government and Parliament in Hungary. Mr. Gyöngyösi's targeting of Hungary's Jews is but one of a series of public pronouncements in recent months by members of the Jobbik Party which have sought to single out minority groups in Hungary.

We call for the implementation and respect of Fundamental Rights legislation which applies to all Member States of the European Union, as declared in the Joint Declaration of 5 April 1977 and the European Human Rights Convention. These documents call for the respect for human dignity and declare the elimination of all forms of racial discrimination as part of the common cultural and legal heritage of all the Member States.

We also recall the terrible consequence of such declarations of antisemitism, culminating in the Holocaust, and we therefore:

- i. Strongly condemn all forms of intolerance, hostility and use of force against persons or groups of persons on the grounds of racial, religious, cultural, social or national differences;
- ii. Affirm our resolve to protect the individuality and dignity of every member of society and to reject any form of discrimination against Hungarian nationals, citizens of other EU states and foreigners;
- iii. Support all endeavours already made to protect the individuality and dignity of every member of society and to reject any form of segregation of foreigners;
- iv. Stress the importance of adequate and objective information and of making all citizens aware of the dangers of racism, antisemitism and xenophobia, and the need to ensure that all acts or forms of discrimination are prevented or curbed;

- v. Request the Hungarian authorities to condemn all antisemitic statements and to engage with civil society to fight antisemitism;
- vi. Request the Hungarian authorities to review the principles and guidelines of the Jobbik Party according to the democratic Institution of the Republic of Hungary;
- vii. Absolutely reject and call for sanctions to be taken against those who utilise narratives involving Holocaust denial and against forms of hate speech used before and during World War II that lead to the Holocaust.
- viii. Recognise that there is but a short step from hate speech to violent attacks against minority groups.

We commend our fellow parliamentarians who stood up in the face of such hatred to demonstrate that they oppose these statements and acts of a growing and dangerous group. We encourage these opposing voices to continue to confront antisemitism and all forms of discrimination and to act now in order to prevent an escalation. In these efforts we stand side by side with our colleagues and offer any assistance they may require.

We call on all in Hungary to abide by the democratic principles which lay at the foundation of the Republic of Hungary and its membership as part of the family of free and democratic nations in Europe.

We finally urge you to oppose any similar statements that may be made in the future. Please consider this incident as a negative example which will serve to encourage everyone to work against a further escalation of hate, prejudice and the rise in antisemitic incidents.

Signed
