

WE ARE ALL HELLO!

WRITTEN & ILLUSTRATED
BY ASHLEY DENG

Hello, I am Adam the Atom!
These are my friends and they are also atoms.

What is an atom, you say?
Well, an atom is anything and everything!

ANYTHING

&

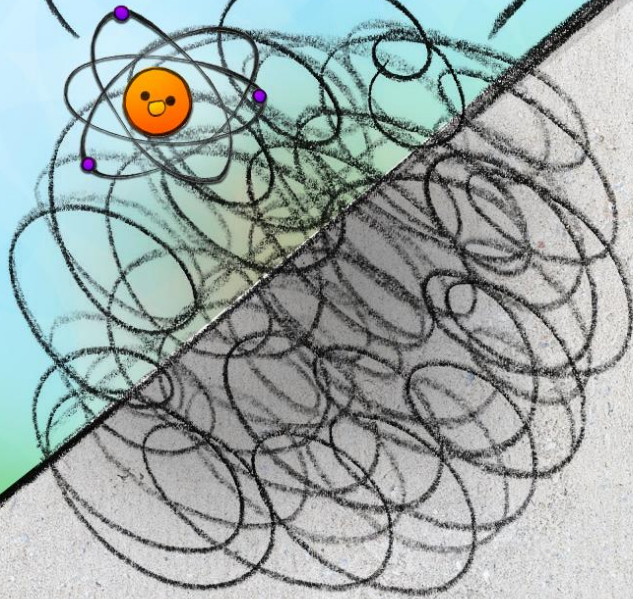

EVERYTHING

I can be the rice in your bowl!

I can be the fur in that fur ball!

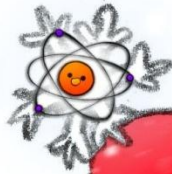

¡HOLA!

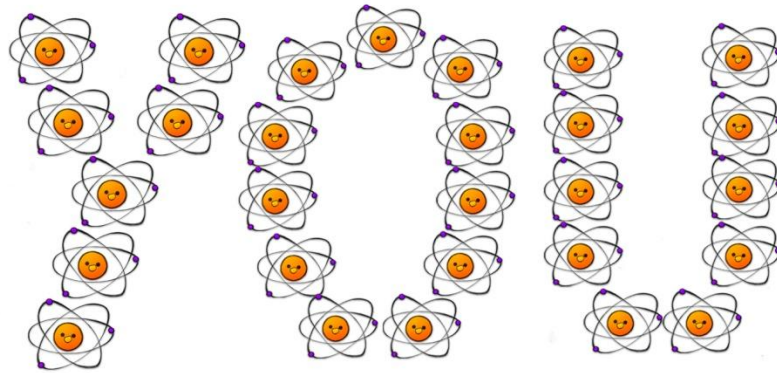

I can be the snow that falls on your tongue!

BONJOUR!

But did you know?
Did you know that I can be you?

You see, everything in the world is made of atoms.
That includes you, this book, and the Earth.
We're just super duper tiny.

But did you know?

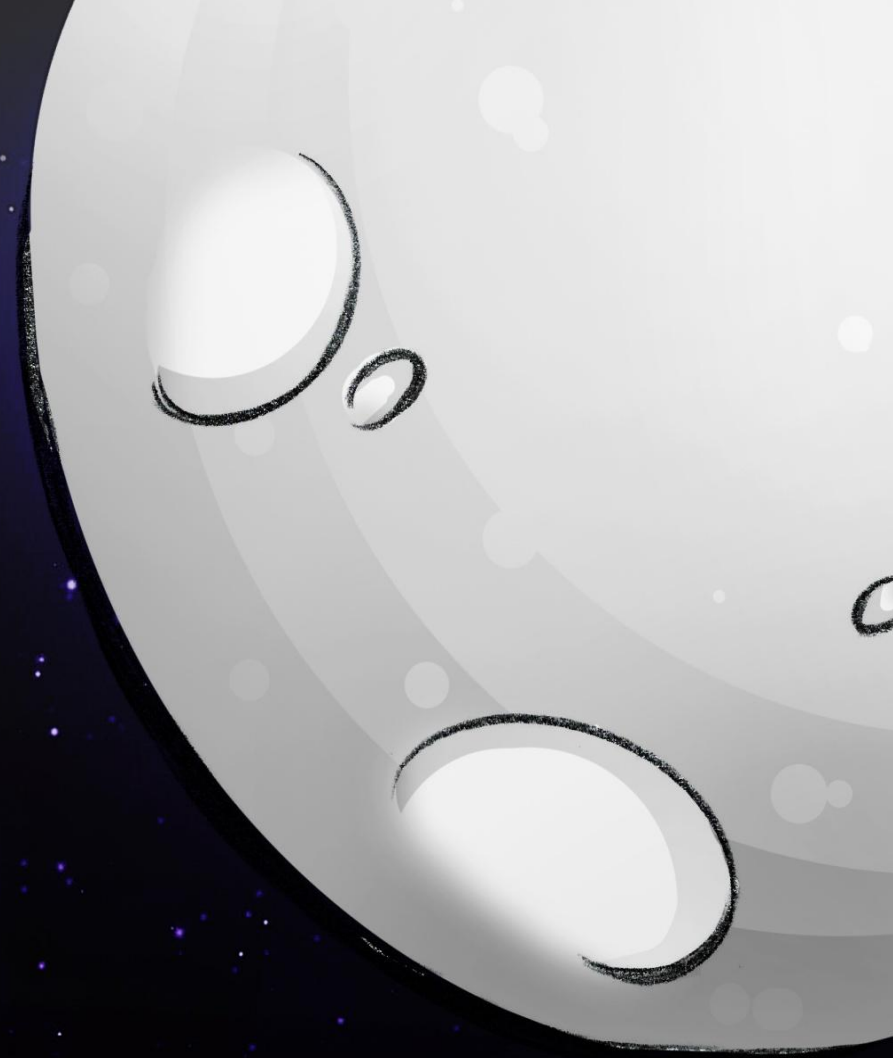

Did you know that every single person in the whole wide world is **also** made of atoms?

So if you're made of atoms
and atoms can be anything
doesn't that mean **you** can be anything?

You can be an astronaut!

You can be a painter!

You can be...

HAPPY!

A cartoon atom with a smiling orange nucleus and three purple electrons orbiting it. The word "HAPPY!" is written in large, yellow, bubbly letters with a black outline and small colorful dots scattered inside. The exclamation point is also yellow and bubbly. The background behind the letters is a light blue bokeh pattern.

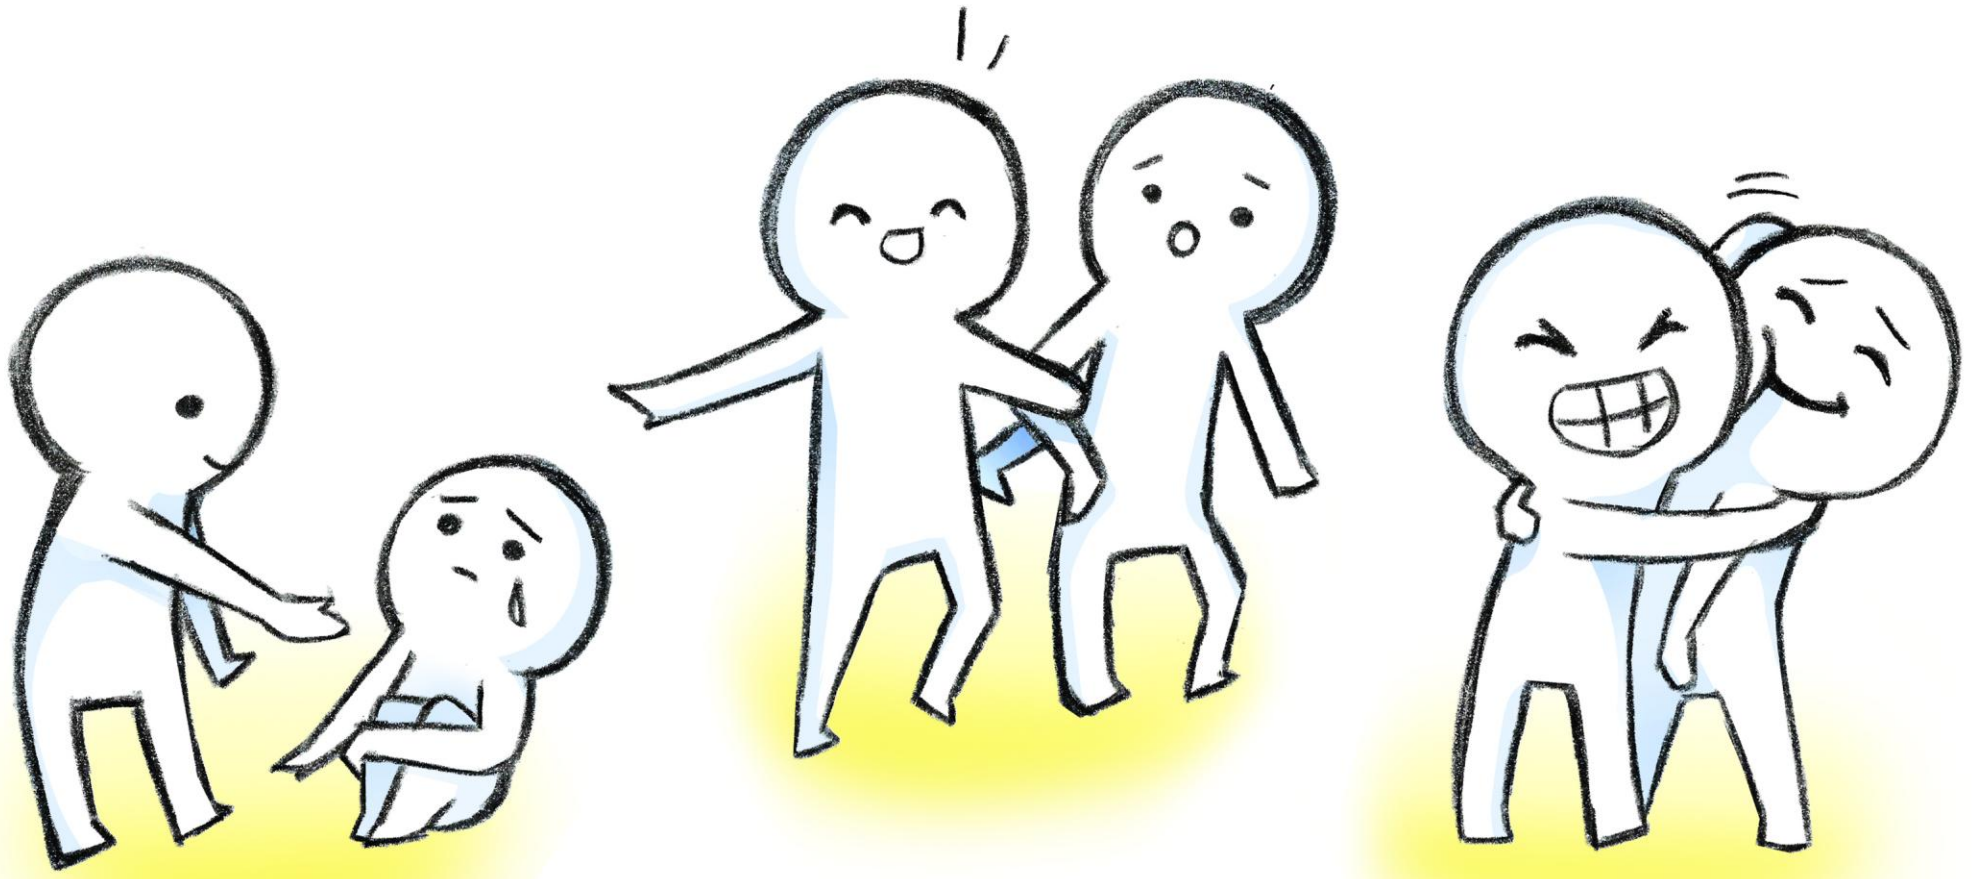

So don't make other people unhappy.
Don't be mean. Don't be cruel.

We may look different and we may act differently,
but we are all people.

You can be anything you want to be. You can be kind. You can accept others and their differences.

We are all atoms. We are all the same.
